

Kopenhagen Fur Fact Sheet

Kopenhagen Fur is the world's largest fur auction house and the leading supplier of fur skins, selling more than 16 million mink skins a year in addition to fox, chinchilla, seal, sable, swakara, karakul and other furs. Due to the sheer volume of pelts going through the auction house, Kopenhagen Fur can assure customers the finest quality of furs, with a unique grading system based on dedicated craftsmanship and technology.

To serve retailers and provide consumer information, Kopenhagen Fur has introduced a bench-marking labelling system with the four quality labels Kopenhagen Purple, Kopenhagen Platinum, Kopenhagen Burgundy and Kopenhagen Ivory assuring customers of a consistent and standardised quality based on stringent quality controls. Less than one per cent of all quality skins at Kopenhagen Fur qualifies for the most exclusive label, Kopenhagen Purple.

Having developed and refined its fur skin production for more than 75 years, Kopenhagen Fur is a company steeped in tradition, yet continuing to exude creative energies. Kopenhagen Fur works closely with fashion designers from around the world and has launched Kopenhagen Studio, a trend-setting laboratory for fur techniques and designs that facilitates cooperation at all levels in the fur and fashion industries. Kopenhagen Studio pushes back the boundaries and unravels the versatility of fur, time and again setting its mark on international catwalks.

A cooperative owned by approximately 2,000 Danish fur breeders, Kopenhagen Fur works closely with veterinarians, animal nutrition scientists, regulators and animal protection societies to continually improve the farming environment, always ensuring that animals are healthy and raised in the most appropriate manner.
